

Goliath Industrial Washing Systems

Conveyor Washing

Bullit, Trayline & Pallet Washers

Bullit Washer—Multi-Stage Conveyor Type Washer/Dryer

The latest range of flat bed conveyor type machines is the result of continual development and research into new designs and methods to save time and labour in the washing of all types of food trays and utensils, and give maximum efficiency.

Three standard sizes of conveyor type washing and rinsing machines are manufactured and all of these can be fitted with additional pre-wash and drying sections.

They are designed to take all types and sizes of plastic/metal trays, containers, baking sheets, bread or cake tins, bowls and utensils etc., covering a capacity ranging from 300 to 1500 trays per hour.

Custom built machines available for any capacity. All machines are fully automatic in operation.

Trayline Washer—Continuous Wash and Rinse Machine

Fabricated entirely from stainless steel. Rust proof conveyor system. Large tank capacity minimise water changes. Machines have built in immersion heater protection.

Wash and rinse from spray arms cleans all round. Easy access to jet pipes and filters. Machine designed for economical running costs and easy operation and maintenance. Access door on both sides with operator protection. Adjustable feet for levelling. Ample floor clearance for cleaning under the machine.

Also available:
Bin Washers, Cabinet Washers,
Rack Washers, and Carousel Washers
